Gluetex Biovate

| | |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product | Gluetex Biovate |
| Printing Technique | UV- inkjet |
| Definition | Self-adhesive structured wallcovering |
| Composition | 60% Biobased (modified starch), 40% PES |
| Width in cm | 140 cm |
| Printing width in cm | 138 cm |
| Weight in m2 | 352 gr/m2 |
| Flame retardancy | SBI Euroclass B-s1,D0 |
| Care | Easy to maintain |
| Other | Meets REACH (registration, evaluation and admittance of chemical materials produced or Imported in the EU) Wise choice (Solvent and PVC-free) Nordic Swan ink Greenguard ink |
| Special features | Project suitable High color density Sustainable Easy repositioning |
| Health and safety | 100% PVC-free 100% Chloride-free No VOC emission No Phthalates No Formaldehyde No heavy metals No ozone depleting chemical No exposure to very toxic fumes in a fire |
